This is required before the safety certificate can be issued.</i></p>	LS185
<p><b>AGENDA ITEMS</b></p>	<p><b>Actions</b></p>
<p><b>3. Movement Strategies overview of the progression and initial proposals for return of spectators.</b></p> <p>Chair convened the meeting acknowledging the extensive work carried out by LS185, West Ham United FC and Movement Strategies in preparation for return of spectators to the stadium which may be halted dependant on the government's position.</p> <p>Movement Strategies (MS) collaborated with the SGSA in the construction of SG02 Method 1 which is a one metre centred distance between spectators. MS are working closely with WHUFC to formulate bubbles for season ticket holders. It was noted that the use of 66k seats has not been agreed and pending approval from the issuing Authority.</p> <p>Internal and external concourse plans shared and further workshops to be carried out with LS185. The plan is to achieve the highest number of spectators.</p> <p>A throughput value of 283 spectators per hour has been adopted as a basis for this analysis. This is derived from adapting the Green Guide rate of 300 spectators per hour to account for social distancing. Detailed overview assumption of arrivals and flow into the stadium reviewed and debated.</p> <p>Analysis of sanitary facility usage during peak fifteen minutes half-time period, with full Covid-19 control measures shared in detail covering various scenarios and queuing format. Extra mitigation and control measures need to be reviewed as hand sanitisers alone will not be sufficient.</p> <p>Movement Strategies announced they need to update the seating capacity to populate the bowl which is will have an impact on the SG02 calculations, review social distancing for egress operation to understand the impact on the transport hubs and concessions at half time ensuring social distancing compliance and overlay with sanitary facility queues.</p> <p>Work will be carried out to give assurance that all assumptions will be tested.</p>	<p>LS185</p> <p>MS/LS185</p> <p>MS</p>
<p><b>4. Stadium event update – strategic actions and learnings</b></p> <p>There were some protestors at the last two BCD matches, no significant issues noted. Protestors were peaceful and amenable. Both fixtures were a success.</p> <p>LS185 advised the group that additional measures will be taken to mitigate against flags and notices being pinned on perimeter fencing which is private property.</p>	LS185

<p><b>5. 2020-2021 Season Update</b></p> <p>Summary of upcoming fixtures shared and it was noted that some kick-off times may change.</p>	
<p><b>6. Public Health update</b></p> <p>The number of confirmed cases has increased substantially in the borough and SAG is taking advice from Public Health Newham who are monitoring daily rates.</p>	
<p><b>7. SGSA COVID-19 Guidance update</b></p> <p>Code of conduct and messaging is key to the success of return of spectators to stadium.</p> <p>WHUFC announced that findings from the women's final was encouraging, there was a staggered ingress and egress despite the final score. Supporters wore their masks throughout the game and followed the code of conduct. There were 500 supporters with a 70/30 women to men split.</p> <p>SGSA added that the fans for this match were very supportive despite the result, this would not occur if you had a larger crowd. Spectators would need clear direction of what is expected of them. Signage at eye level is an effective form of delivering messages. WHUFC are calling for a unified mandatory code of conduct template for all clubs to follow irrespective of stadium layout. The SGSA acknowledge that face coverings will be one of the main challenges, the SGSA to review and feedback to SAG.</p> <p>Egress would be the greatest challenge and it is inevitable that there will be a stop and hold just before the station entrance. Organisers need a strong well planned ingress and egress plan. LE to put together concerns that can be circulated and worked on.</p>	<p>LE</p> <p>LE</p>
<p><b>8. Code of Conduct for spectators</b></p> <p>WHUFC reiterated the need for a code of conduct template to achieve some form of consistency throughout all clubs, this is to include, although not exhaustive: protocol on wearing of face coverings, expected behaviours whilst watching the games, movement within the stadium and bowl.</p> <p>WHUFC are working on formalising the current code of conduct noting what sanctions will be imposed if breached. The Chair highlighted the importance of understanding the full note of the sanctions, which if breached may result in fixtures being played BCD.</p> <p>Details of the code of conduct for the women's recent fixture was shared and discussed, LBN requested a copy of this.</p> <p>Stakeholders continued discussions noting that fans will need to take responsibility for their actions, and those at risk need to exempt themselves from attending.</p> <p>WHUFC, in consultation with supporters group, will meet to explain the reason these measures are being put in place and will feedback to SAG. Further review of the comms strategy options, exemption shielding policy, travel lockdowns and sanctions continued.</p>	<p>SGSA</p> <p>WHUFC</p> <p>WHUFC</p>
<p><b>9. West Ham United FC Ticketing Plan</b></p> <p>The laws on hospitality have changed and it is now mandatory for business to monitor if customers are adhering to the 'rule of six'. This is now enforceable.</p>	

<p>A copy of the ticketing strategy to be shared with LBN. WHU gave an overview of the ticketing plan used for the women's test match which was a success. The Code of Conduct was well received, usage of seating manifest was shared showing social distancing, exemption policy, track and trace as well as ingress and egress.</p> <p>Members discussed hospitality and player's nominated guest policy which will be in line with legislation. WHUFC wanted to give stakeholder reassurance that the ticketing resolution was robust and under control.</p>	<b>WHUFC</b>
<p><b>10. Return of Spectators to football plans</b></p> <p>A discussion was held and the final plans will be submitted for scrutiny by LBN.</p>	<b>LS185</b>
<p><b>11. Partners Joint up Comms Plan</b></p> <p>WHUFC to co-ordinate a subgroup with partners to focus on multi-party joint comms and review of the code of conduct.</p> <p>LBN need sight of the LS185 test schedule. LS185 informed the group that they will be formally presenting the plans at the next SSAG meeting. A table top will be arranged for the 15 October and ramp up being tested for relevant numbers.</p>	<b>WHUFC</b> <b>LS185</b>
<p><b>12. Egress plans and transport hub management</b></p> <p>The advice is not have a hard egress with stop and holds. A controlled egress strategy needs to be in place. Full detailed traffic management plan is still required by LBN.</p> <p>LS185 working alongside transport partners and WHUFC reviewing the expectations of management of crowds on egress. Transport partners reminded LS185 that social distancing within the station footprint is expected and will inevitably result in queues outside. Other factors that would increase the challenge would be time and day of the week as well as other fixtures being played at the same time in London.</p> <p>LBN emphasised that usage of vehicles will cause further congestion in the area on a match day.</p>	<b>LS185</b>
<p><b>13. Any other safety related business</b></p> <p>No other safety related business noted.</p>	
<p><b>14. Date of next Football SAG</b></p> <p>Thursday 3 December 2020.</p>
