

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 10th February for period 31st to 6th February

www.newham.gov.uk/coviddashboard

Vaccination: first doses given up to 10th February

- 29,921 1st dose given in total (8% of Newham population). Of these:
- Cohort 1: 236 to older residents in care (91%)
- Cohort 2: 4,564 to 80+ (83%)
- Cohort 3: 7,580 to 75+ years (57%)
- Cohort 4: 12,312 to 70+ (80%), excluding CEV coverage
- 17,609 to under 70 years, including frontline health and social care workforce

WHAT DOES THIS MEAN?

The number of new cases of Covid-19 in Newham has again fallen substantially (by 36%). Also positivity has fallen, both of which are really good news. 29,921 first dose vaccines have been given and 91% of the top priority (care home residents) are vaccinated with one dose.

Community transmission continues and the new strain of Covid-19 is highly transmissible. More rapid testing is becoming available across Newham for anyone who needs to leave home for work or caring.

As the NHS remains under major pressure limit your contact with other households.

- Please ensure your face is covered when going to shops or other indoor places
- If you have been invited for a vaccination please take it up and if you know someone who needs support to get a vaccine please help them to do so.

Jason Strelitz
Director of Public Health
London Borough of Newham
