

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 12th May for period 2nd to 8th May 2021

www.newham.gov.uk/coviddashboard

WHAT DOES THIS MEAN?

The number of new Covid-19 cases has fallen further this week to 41. Testing is down slightly, with another small fall in positivity. 124,164 first dose and 42,294 second dose vaccines have been given (up to 10th May).

It's vital that everyone currently eligible gets a vaccine when offered; getting vaccinated protects the whole community and not just yourself. Book yours at www.newham.gov.uk/bookyourvaccine

Community transmission of Covid-19 remains a risk so it is important to:

- Test yourself regularly, even if vaccinated: www.newham.gov.uk/rapidtesting www.newham.gov.uk/hometesting
- Wear a face mask when around others or when in indoor places.
- Ensure you isolate if you have symptoms, test positive or are a contact. Support is available.

Data source: Covid-19 Situational Awareness Explorer, (PHE). Rendered on 12th May for data reported up to and including 8th. Due to reporting delays the most recent 4 days are excluded. 1: Numbers for the previous week may be different from last week's dashboard as new data can change counts for previous weeks. 2: Pillar 2 only (this is new testing capacity set up for Covid-19 response).
