

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 2nd June for period 23rd to 29th May 2021

www.newham.gov.uk/coviddashboard

WHAT DOES THIS MEAN?

The number of new Covid-19 cases has risen this week to 90. Testing has slightly increased, while positivity has risen from 0.3% to 0.5%. 144,670 first dose and 79,570 second dose vaccines have been given (up to 31st May).

With concerns over new variants it's vital that everyone currently eligible gets a vaccine when offered; getting vaccinated protects the whole community and not just yourself. Book yours at www.newham.gov.uk/bookyourvaccine

Community transmission of Covid-19 remains a risk so it is important to:

- Test yourself regularly, even if vaccinated: www.newham.gov.uk/rapidtesting www.newham.gov.uk/hometesting
- Wear a face mask when around others or when in indoor places.
- Ensure you isolate if you have symptoms, test positive or are a contact. Support is available. www.newham.gov.uk/coronavirus

Data source: Covid-19 Situational Awareness Explorer, (PHE). Rendered on 2nd June for data reported up to and including 29th. Due to reporting delays the most recent 4 days are excluded. 1: Numbers for the previous week may be different from last week's dashboard as new data can change counts for previous weeks. 2: Pillar 2 only (this is new testing capacity set up for Covid-19 response).
