

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 23rd June for period 13th to 19th June 2021

www.newham.gov.uk/coviddashboard

WHAT DOES THIS MEAN?

The number of new COVID-19 cases is now rising again with 255 cases this week.

173,001 first dose and 102,068 second dose vaccines have now been given (up to 20th June), and most adults are now eligible.

It is vital that everyone currently eligible gets a vaccine when offered; and their second dose when eligible. Getting vaccinated protects your loved ones and not just yourself. Book yours at www.newham.gov.uk/bookyourvaccine

Community transmission of COVID-19 is increasing so it is important to:

- Test yourself regularly, even if vaccinated: www.newham.gov.uk/rapidtesting www.newham.gov.uk/hometesting
- Wear a face mask when around others or when in indoor places.
- Ensure you isolate if you have symptoms, test positive or are a contact. Support is available. www.newham.gov.uk/coronavirus
