

NEWHAM WEEKLY COVID-19 STATISTICS

Updated: 28th July for period 18th to 24th July 2021

www.newham.gov.uk/coviddashboard

WHAT DOES THIS MEAN?

The number of new COVID-19 cases has fallen with 939 cases this week in line with national changes to the rate of new cases.

197,750 first dose and 142,426 second dose vaccines have now been given (up to 25th July), and most adults are now eligible.

It is vital that everyone currently eligible gets a vaccine when offered; and their second dose when eligible. Getting vaccinated protects your loved ones and not just yourself. Book yours at www.newham.gov.uk/bookyourvaccine

Community transmission of COVID-19 remains widespread so it is important to:

- Test yourself regularly, even if vaccinated: www.newham.gov.uk/rapidtesting www.newham.gov.uk/hometesting
- Ensure you isolate if you have symptoms, test positive or are a contact. Support is available. www.newham.gov.uk/coronavirus

Jason Strelitz
Director of Public Health
28 July 2021

Cases (Positive tests)	Rate of cases (per 100,000 persons)	Daily testing ₂ (per 100,000 persons)	Positive tests (%) Total weekly tests: 22,691 ₂
