ECONOMIC GROWTH AND JOB OPPORTUNITIES IN NEWHAM

Newham is home to some of the largest and most spectacular developments in Europe. Newham has a large amount of land available for development, world-class transport and digital infrastructure, and a young, energetic and increasingly skilled workforce. The borough is well placed to take much of London's eastwards growth in the 21st century. By 2025 it is estimated that £22 billion will have been invested in the area, creating more than 35,000 new homes and 100,000 new jobs.

One of the borough's most significant regeneration areas, the only Enterprise Zone in London, is **The Royal Docks**, a 125 hectare site, incorporating Silvertown Quays, Royal Albert Dock and Albert Island. Today, the area continues as an important economic centre for London, with industry giants such as **Tate & Lyle, ExCeL, London City Airport,** and the **University of East London. The Royal Docks** is now home to **City Hall**, the political seat of the Capital, the **Mayor of London**. The Royal Docks is also driving innovation across other key sectors including advanced urban services, business and leisure tourism, automotive, digital and tech industries, and cultural and creative production. Working in partnership with a wide range of stakeholders from local community groups to developers and local businesses, an ambitious £314 million investment programme will be delivered over the next five years and beyond, with greener sustainable development as a focus, re-emerging as a

commercial and cultural hub of global significance. Celebrating 10 years since the London 2012 Olympic and Paralympic Games, Stratford continues to see further transformations, from the new ABBA Voyage Arena in Pudding Mill Lane, to the development of the International Quarter. **East Bank**, Stratford, will be a new powerhouse for innovation, creativity and learning, bringing world-class institutions to East London, including the **BBC, Sadler's Wells, UAL's London College of Fashion, UCL** and the **V&A**, along with an explosion of small businesses and start-ups. Stratford will be at the heart of London's new **Fashion District** and creative centre.

Together these developments are bringing new types of jobs and opportunities to the area in quantity and quality not seen here before. In total, there is a possibility of 40,000 jobs that could be available by 2025, including spin-offs in the local economy, with a cumulative economic value of more than £5 billion. There is a focus on developing talent and helping people get jobs in the construction and the built environment; digital technology; and the cultural, creative and fashion sectors.

Over the next two decades, Newham will continue to act as a focal point for growth and investment within London. The immense scale of regeneration and development is not only about establishing Newham as a key player on the global stage, it is about securing long term growth and prosperity for future generations.

ALL ROUTES AHEAD: HOW TO GET TO THE CAREER YOU WANT

Here is some advice to help you plan your next move after Year 11. Remember: whatever your first choice, make sure you have a back-up plan.

IF YOU ARE IN YEAR 11, YOU WILL NEED TO CONTINUE IN EDUCATION OR TRAINING UNTIL AT LEAST YOUR 18TH BIRTHDAY.

Studying a course until you are 18 will give you the best chance of developing the skills and gaining the knowledge that employers and universities want.

There are different options for you to choose from at age 16. You can study A-level at a sixth form or at college; study an applied technical programme e.g. BTEC, take up an apprenticeship or traineeship, or study part-time and combine study with work or volunteering for more than 20 hours per week.

CAN I WORK FULL-TIME?

You will still be able to work full-time (more than 20 hours a week) if you want to, or volunteer or even set up your own business. But you will also need to make time to undertake part-time training or study in order to meet the duty to participate – this will allow you to get accredited qualifications.

WHAT DO I NEED TO DO?

Start thinking about the type of learning or training you need to get you where you want to be in the future. There are a range of choices available to you at age 16, such as A-levels, applied qualifications such as BTEC, or apprenticeships. You will have more choice about which route you would like to follow. This includes more traditional pathways

like GCSEs and A-levels, or applied and technical qualifications/training. Your teachers or the careers adviser at your school or college can help you decide what suits you best. Talk to your school careers coordinator to book a careers interview.

FULL-TIME EDUCATION

Think about where you want to study. Do you want to study at a large sixth form college or further education college, a smaller school sixth form, or at a small training provider? You can find information about Newham learning centres in this brochure.

There are many different courses at a variety of levels. Your options will depend on your interests, strengths and Year 11 results. If you enjoy studying, do well at exams and are predicted to achieve mainly GCSEs at Grade 5 or above (formerly A*-B) then AS/A-levels could be right for you.

If you are interested in learning about a general career area but are not yet ready to learn about a specific job, then an applied course could be for you. Applied qualifications are Level 3 courses for 16 to 19-year-olds that teach transferable skills. They are for students that want to continue their education through learning applied to a general job area e.g. business administration, health & social care, performing arts, arts, crafts, media & publishing.

If you are interested in training for a specific job role, there are technical qualifications available at all levels such as CILEX (legal work), AAT (accounts) and IMI (motor industry). Apprenticeships also include opportunities to study for technical qualifications. Applied courses are also available at level 2 for students who are not yet ready to progress to level 3 courses.

APPRENTICESHIPS

If you are ready to start your career immediately, an apprenticeship will provide you with a job that offers training as well. You can apply through training providers and directly to employers.

You will need to be interviewed by an employer and possibly pass an assessment test. You will receive payment of a minimum of £4.81 per hour as well as having the opportunity to gain qualifications. If you need more qualifications or experience before starting an apprenticeship, then you might wish to consider a traineeship.

FREQUENTLY ASKED QUESTIONS (FAQS) I NEED HELP DECIDING WHAT I SHOULD DO. WHERE DO I EVEN START?

The first thing you need to do is not worry. Careers advisers in your school have a broad knowledge of all the options. Based on your talents and individual needs, they will help you make the best decision. Most of the learning centres in this brochure have course advisers who will be happy to talk to you. Please contact the centre directly to find out more on specific courses and the grades required for entry.

For more information on specific careers and the qualifications and skills needed for them, visit the National Careers Service website.

I KNOW EXACTLY WHAT I WANT TO DO. HOW DO I APPLY?

You need to check the application information and any deadlines on your chosen learning centre's website/s. Make sure that you complete the application fully and obtain references from your school. Your school will then advise you about submitting applications.

WHAT HAPPENS NEXT?

If you meet the requirements for your chosen course and it is not oversubscribed, you will be offered a place. You may be asked to come in to discuss your application further. You will be able to ask questions and get advice to help you make the best choice for your future. If you are successful in your application, you will need to enrol formally in August or September 2022. All offers of places are made subject to availability and are sometimes subject to you achieving your predicted grades. If

you do not achieve your predicted grades, get in touch with the college or learning centre as soon as possible to see if they will still accept you on the course or have another option available.

LATE ENROLMENTS – IT MAY NOT BE TOO LATE.

The earlier you apply, the more options you will have. However, if you've missed the enrolment date, there may still be a chance to get a place on a course. Enrolments generally continue for two weeks after the start of the course, and this can be extended in some cases. Contact the learning centre to find out more.

WHERE DO NEWHAM'S YOUNG PEOPLE GO?

Catherine completed A-levels in Biology (A), Chemistry (B) and History (A) after joining NewVic from St Angela's Ursuline School in Newham. She said: "My qualifications will definitely open a lot more doors for me and give me greater opportunities with my degree choice, which I researched more thoroughly during lock-down. I was offered a place at Middlesex University to study Veterinary Nursing".

Bhoomi achieved a Level 3 Extended Diploma in Sports (D*D*D*) after joining NewVic from Stratford Academy. She said: "My teachers really pushed me to do extra work for me to go to the highest grade in all my units. I'll miss all the opportunities at NewVic. I took part in the Leadership Academy with the Sports Academy and achieved two coaching badges and met different people to gain new skills. I was offered a place at the University of Hertfordshire to study Sports Therapy".

Raky Ann studied at Sarah Bonnell and currently doing a L3 Applied Science National Diploma. She is hoping to go to university to undertake a degree in science and pursue a career in scientific research.

INFORMATION

for young people with special educational needs and disabilities (SEND), and for those helping them

Leaving school to start the next stage of your life is very exciting, but it can also be an anxious time when careful decisions and choices have to be made that help you to fulfil your dreams and aspirations.

You will be thinking about the future and what you would really like to do. You will need to look into which courses or training are available and if you have a physical disability, a learning disability or perhaps both, you will also want to know about student support services that will enable you to get on with your learning.

WHAT DO I DO NEXT?

- 1 Once you have found a course that is of interest, you can find out more by contacting the college, sixth form or other learning provider to arrange a visit. You will find contact details in this directory. Explain that you need to know about student support services and ask if you can meet the course tutor and someone from student support services.
- 2 When you visit, remember that this is your opportunity to find out about the course and for the course tutor to find out about you. The course tutor will know the course well and will offer you their best advice. It is important to listen carefully; you are making an important decision and it has to be the right one for you now and for your future plans.
- 3 When you speak to student support services or the course tutor, explain the support that you have had in the past and how this has helped you with your studies. Let them know if you have an Education, Health and Care plan (EHC plan).

SOME GOOD ADVICE

- Advice and guidance is very important. There are people available to help you in school. It is really important to work with them.

- Listen to the course tutors that you will meet. If for some reason it is felt that the course is not the right one for you, do not be too disappointed. This happens to everyone at some time and it is very important that you start the right course.
- Whatever you choose to study, remember it does not matter if your learning takes small steps or larger ones. You are working towards what you would like to do in the future so remember that along the way we sometimes do change our mind about what that is.
- You are used to being at school for five days every week and you may now find that some courses or training are for only one, two or three days. Try not to let that worry you or those close to you. Your spare days are an opportunity to do something else that interests you which could be another course at the same place. Speak to the people who are helping you for advice and guidance.
- Lastly, enjoy yourself and your learning.

To find out about a wide range of services available for young people with Special Educational Needs and/or Disabilities, please visit www.families.newham.gov.uk

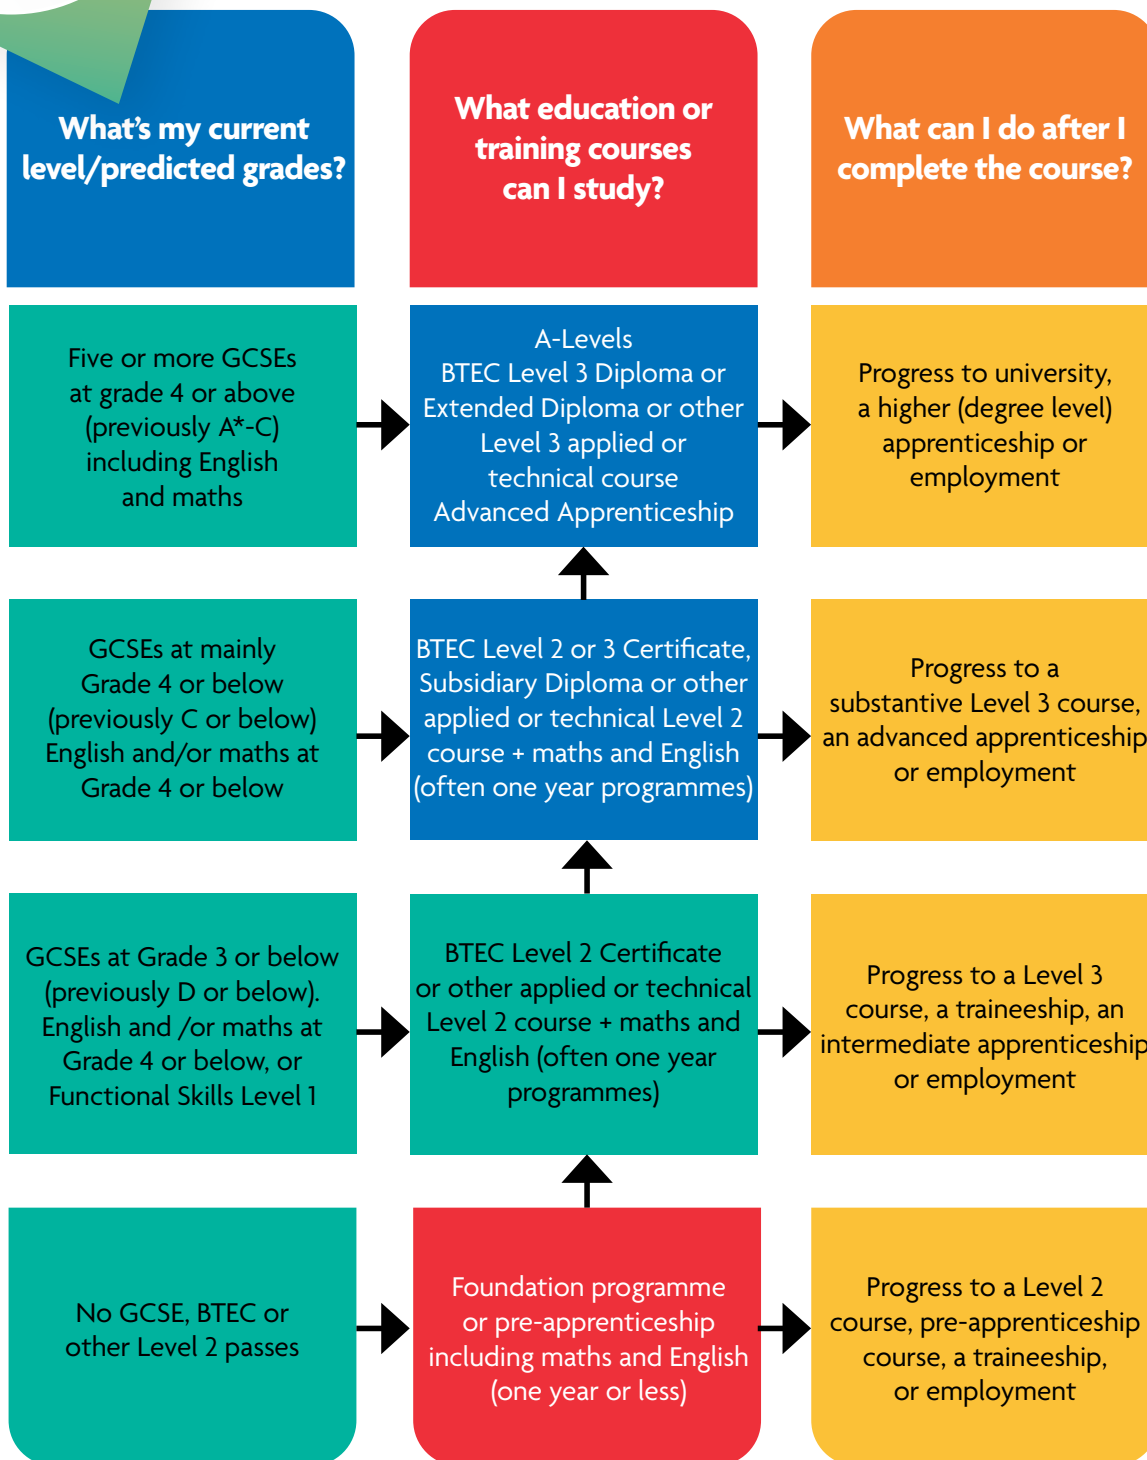

WHAT LEVEL IS RIGHT FOR ME?

If you don't achieve a minimum of a Grade 4 at GCSE or a Level 2 pass in Functional Skills in maths and English by age 16, you will need to continue studying maths and/or English as part of your post-16 study programme.

What level is right for me?

There will be specific entry requirements for individual subjects and courses, and some subjects have higher entry requirements than others

APPRENTICESHIPS

There has never been a better time to start an apprenticeship.

Apprenticeship participation now stands at a record level - there were 321,400 apprenticeship starts in the 2020-2021 academic year of which 65,100 (20.3%) were under 19.

Apprenticeships give you the opportunity to work for a real employer alongside experienced staff. You will earn a wage and gain qualifications as well as valuable workplace experience and relevant job-specific skills. Apprentices are also given time for study related to their role (the equivalent of one day a week).

WHY APPLY?

- Earn a real wage
- Be trained in the skills employers want
- Set yourself up for the future – apprentices enjoy marked salary increases when they complete their training, for example, ‘The net lifetime earnings premium associated with gaining a Level 4 apprenticeship is substantial, averaging £117,600 across all subject areas’*

WHAT TYPES OF APPRENTICESHIP ARE THERE?

All apprenticeships include elements of on the job and off the job training, leading to industry recognised standards or qualifications. Some apprenticeships also require an assessment at the end of the programme to assess the apprentice’s ability and competence in their job role.

Apprenticeships are available at different levels:

- Intermediate apprenticeships – equivalent to GCSE (Level 2)
- Advanced Apprenticeships – equivalent to A-Level (Level 3)
- Higher Apprenticeships – equivalent to Foundation degree and above (Levels 4, 5, 6, 7)
- Degree – equivalent to a Bachelor’s or Master’s degree.

HOW LONG IS THE APPRENTICESHIP TRAINING?

Apprenticeships take between one and four years to complete and cover more than 1,500 job roles in a wide range of industries, from engineering to financial advice, veterinary nursing to accountancy. The government is committed to increasing the number

of apprenticeships in the UK over the next few years, so there has never been a better time to get involved.

HOW OLD DO YOU HAVE TO BE?

Anyone living in England aged 16 and over who is not in full-time education can apply to be an apprentice. If you feel you are not ready for an apprenticeship yet, you may want to try a traineeship.

ENTRY REQUIREMENTS

Apprenticeships are available to anyone over the age of 16, living in England and have no upper age limit. The National Apprenticeship Service is committed to ensuring that high

FARHEEN, PARTICIPATION & ENGAGEMENT FACILITATOR, NEWHAM COUNCIL

This apprenticeship has provided me with the perfect opportunity to learn, develop and progress, giving back to the community that I live in. The ability to secure a qualification which further supports my understanding of the role within this apprenticeship, has allowed me to personally progress with unlimited prospects and a bright future. My role as a participation and engagement facilitator allows me to put my current skills to practise and develop some skills such as confidence when having regular meetings with residents.

*Productivity and Lifetime Earnings of Apprentices and Graduates (Centre for Economics and Business Research (CEBR)/ Barclays 2016)

quality apprenticeships are a prestigious option, accessible to all people from all backgrounds. All vacancies on [Find an apprenticeship](#) will clearly state what the entry requirements are for the job role advertised.

There will be different entry requirements depending on the industry, job role and apprenticeship level.

If your predicted grades at GCSE don't meet the entry requirements for the apprenticeship you are interested in, you can apply for a traineeship. Recent changes to the minimum English and maths requirements now mean that people with a learning difficulty or disability can now access a Level 2 intermediate apprenticeship as long as they can achieve an entry Level 3 qualification during their apprenticeship.

A Disability Confident Employer will generally offer an interview to any applicant that declares they have a disability and meets the minimum criteria as defined by the employer. For more details, search Disability Confident on [GOV.UK](#).

HOW MUCH DO YOU GET PAID?

The minimum wage for apprentices is £4.81 per hour from April 2022, but many employers pay more than this. The Apprenticeship Pay Survey 2018 estimated the average mean hourly pay received by apprentices in Great Britain was £7.70 an hour for Level 2 and 3 apprentices which is equivalent to over £16,000 per year. This is dependent on the sector, region and apprenticeship level. Your employment will normally be a minimum of 30 hours per week.

TRAINING

During your time as an apprentice you will receive training to enable you to gain nationally recognised qualifications which will help advance you in your chosen career. Apprenticeships are designed with the help of employers, so they offer a structured programme that takes you through the skills you need to do a job well.

WHAT'S ON OFFER?

Large, multi-national organisations to medium and small enterprises offer apprenticeships in a variety of sectors, including:

SAHL ASSISTANT ACCOUNTANT APPRENTICE

“A few years back I was working in the private sector as a pharmacy assistant and then became a pharmacy manager. Although I have gained valuable skills in managing a business to a certain extent I did not acquire management or finance qualifications. When I came across Newham Council's Association of Accounting Technicians (AAT) apprenticeship it appealed to me because it will help me achieve the AAT accounting qualification plus other transferable skillsets E.g. communication across a wide range of levels in which I did not obtain in my previous roles and using IT systems efficiently and effectively. I have completed a paper of the Association of Chartered Certified Accountants (ACCA) alongside the apprenticeship and aim to complete the full ACCA qualification. Although the apprenticeship requires self-discipline and motivation it is a rewarding choice as it is a stepping stone for further advancement. I would personally recommend as a good option.”

- Retail and commercial enterprise
- Construction, planning and the built environment
- Engineering and manufacturing technologies
- Leisure, travel and tourism
- Art, media and publishing
- Business, administration and law
- Information and communication technology
- Health, public services and care
- Education and training.

There are more and more apprenticeships becoming available each year at different levels, and employers including BT, the BBC, Glaxo Smith-Kline, Lloyds Banking Group, Ministry of Defence Army, Newham Council, NHS Blood and Transplant (NHSBT), Royal Air Force, Royal Navy, Starbucks, Travis Perkins, and Transport for London, who all offer apprenticeship routes into their organisations.

A number of large organisations have replaced their graduate entry routes with higher or degree entry apprenticeship routes for applicants with Level 3 (A-levels equivalent qualifications).

APPRENTICESHIPS WITHIN NEWHAM COUNCIL

An apprenticeship at Newham Council offers Newham residents the opportunity to gain new skills and qualifications while working. Apprentices earn while they learn during the two year programme and receive support to help them build their confidence and launch a successful career. They receive off the job training once a week to work towards either a level 2 or 3 qualification related to their job role. They also receive practical experience and work alongside experienced professionals who will help shape their professional development. Candidates don't need any formal qualifications to apply for many council apprenticeships. An English and maths assessment is part of the recruitment process.

Email apprenticeships@onesource.co.uk to register your interest for future upcoming vacancies.

[Register for alerts for opportunities in Newham council.](#)

WHERE TO LOOK FOR AN APPRENTICESHIP?

If you are in Year 11 and interested in an apprenticeship, there are several ways you can find out more.

More information, including videos of current apprentices, is available at apprenticeships.gov.uk

You can search and apply for vacancies on Find an apprenticeship on GOV.UK. Once registered on Find an apprenticeship, email and text alerts can be set up about new apprenticeship vacancies which may be of interest.

If you would like to view more information on a selection of well-known employers you can visit the vacancy snapshot at amazingapprenticeships.com. It displays a range of employer fact files outlining the types of apprenticeship vacancies available at these companies across the year. If you have a specific interest in a certain employer, it is also worth going to their recruitment site.

You could also meet employers and their apprentices through the live broadcast feature. In these interviews, you can take a look behind the scenes of a range of different employers and meet some of their apprentices amazingapprenticeships.com/live-broadcasts

Contact the National Apprenticeship Helpdesk for further support on 08000 150 600 or by email: helpdesk@manage-apprenticeships.service.gov.uk. The Apprenticeship YouTube channel has useful hints and tips on applying. For other videos on apprenticeships, visit [YouTube](https://www.youtube.com) and search apprenticeships/NAS.

For information and guidance visit www.findapprenticeship.service.gov.uk/apprenticeshipsearch where you can download:

- How to write a winning apprenticeship application
- Progress your career with higher apprenticeships
- Apprenticeship support guide.

If you want to find out more about apprenticeship opportunities and training in Newham, you can contact local apprenticeship training providers.

Newham College

www.newham.ac.uk/apprenticeships

Building Crafts College

www.thebcc.ac.uk/apprenticeships

for apprenticeship vacancies in construction and the built environment

Newham Council offers apprenticeships each year to local residents aged over 16. The council pays the real Living Wage (rLW) of £11.05 per hour, and there are a range of apprenticeship vacancies available. Check the Newham Council website regularly to see when applications for apprenticeship vacancies are available www.newham.gov.uk/apprenticeships

HOW TO APPLY?

At any one time on Find an apprenticeship, in a variety of careers and industries across England, there are between 12,000 - 20,000 apprenticeship vacancies online available at gov.uk/apply-apprenticeship. You can search by keyword (job role, occupation type or apprenticeship level) and by location. In addition, some employers advertise vacancies on their website.

Once the right job comes up, simply register on the website and follow the step by step instructions to apply for the role.

You can talk to your school careers adviser about apprenticeships and they will support you in making apprenticeship applications.

If you find an apprenticeship vacancy that you want to apply for, but your predicted grades at the end of Year 11 don't meet the entry criteria, we recommend that you apply for a traineeship first. A traineeship is a stepping stone to help you to boost your qualifications and work experience in order to successfully apply for an apprenticeship.

FURTHER SUPPORT

Additional financial support is available for care leavers starting apprenticeships. A £1,500 bursary is available to support care leavers who are aged 16-24. This will be paid directly to them in the first year of the apprenticeships. If you need help with your apprenticeship application or professional advice on making the right choices, visit nationalcareersservice.direct.gov.uk for a web-chat with an adviser or call 0800 100 900 (free from landlines and mobiles).

OTHER BENEFITS

Did you know that apprentices are entitled to an NUS card? This is issued through the National Union of Students and gives you discounts at a number of retailers and services. You may also be entitled to apply for an Apprenticeship Oyster Travelcard, which allows you to claim up

ISMAEEL, TRAINEE ACCOUNTANT, NEWHAM COUNCIL

"I saw the apprenticeship programme as a great alternative to university. It provided me with an option to train while learning and was an opportunity to professionally practice accountancy principles in a working environment which helped me to develop into an effective trainee accountant."

to 30% off adult travelcards and bus and tram season tickets.

TRAINEESHIPS

TRAINEESHIPS

A traineeship is real work experience with training that focuses on giving young people the skills and experience employers are looking for.

If your predicted grades do not meet the entry criteria for the apprenticeships that you are interested in, or if you have been unsuccessful when applying for an apprenticeship then you are likely to be a good candidate for a traineeship.

WHAT IS A TRAINEESHIP?

Traineeships are an opportunity to gain real work experience, job skills and improve your English and maths, if needed.

The programme can last up to a maximum of six months with the content tailored to your individual career needs.

At its core, traineeships provide a high-quality work experience placement, work preparation training, and English and maths if needed

IS A TRAINEESHIP RIGHT FOR ME?

Traineeships are ideal if you are motivated to get an apprenticeship or job but lack the entry grades, skills

and experience that employers are looking for. If your predicted grades don't meet the entry criteria for the apprenticeships that you are interested in, or if you have been unsuccessful when applying for an apprenticeship or other jobs due to a lack of skills and experience then you are likely to be a good candidate for a traineeship. You could be suitable if you will be 16 at the time you apply, are motivated to work, have little work experience, and are qualified below Level 3 (A-Level).

WHAT ARE THE BENEFITS OF A TRAINEESHIP?

Traineeships have been developed in response to research showing that young people frequently lack the knowledge and experience employers expect in the workplace.

Traineeships will help to tackle this problem, while benefiting you in the following ways:

- The opportunity to build your CV and get valuable work experience with local and national employers, where you are able to learn about the business and the industry it operates in
- Work preparation training will put you in a better position to compete for an apprenticeship or other employment
- Maths and English support, if needed, to help you with the literacy and numeracy skills needed to boost your career prospects, as well as improving your long-term chances and earning potential over your lifetime
- Employers are at the centre of the work experience, which ensures you are 'work ready', and have the confidence to take the first step to securing employment and kick starting your career
- At the end of your work experience you'll get an interview with the company if a role is available or an exit interview, together with meaningful written feedback, to help you secure an apprenticeship or other employment

“Traineeships are a great opportunity for both parties. Not only can the employer get to know the trainee but the trainee can get real exposure to the type of career that is available and make an informed decision that is best for them.”

**Chris Starling,
Head of
Apprenticeships,
Virgin Media**

“My traineeship has given me the chance to improve my technical skills and show my determination to succeed. The support I have received has been brilliant, with regular reviews and updates on my progress.”

**Jake completed a
traineeship with
Virgin Media and
has now progressed
to an intermediate
apprenticeship.**

WILL I BE PAID?

Employers are not required to pay you for taking part in a traineeship but may support you with expenses such as transport and meals. The work placement is a real opportunity to gain meaningful work experience.

Depending on your individual circumstances, you may be able to access financial support from your training provider, for travel costs or if you need extra support due to a disability.

HOW DO I FIND A TRAINEESHIP?

Now that you've determined a traineeship could be the right route for you, there are two options available:

1. Traineeship opportunities are advertised regularly on Find a Traineeship on GOV.UK.
2. Contact your local colleges or training providers and find out more about traineeships.

FINANCIAL SUPPORT AND HELP

If you are under 19 and have been resident in the UK for three years or more, full-time 16-19 education fees are FREE (this is subject to eligibility and status)

For more information visit: www.gov.uk/education/funding-for-16-to-19-year-olds-in-schools Fees will be charged for commercial or higher education courses, and international students have to pay fees on all courses.

While you may not have to pay tuition fees, you might have other expenses to consider such as exam fees and the cost of materials for your course.

16-19 BURSARY FUND

You could get a bursary to help with education-related costs if you are aged 16 to 19 and:

- studying at school or college (not university) in England
- on a training course, including unpaid apprenticeships.

Students most in need may be eligible to receive a bursary of £1,200 a year. This group includes young people who are:

- in care or have recently left local authority care
- receiving income support
- disabled and receive an Employment and Support Allowance (ESA), and either Disability Living Allowance (DLA) or a Personal Independence Payment (PIP) in their name.

DISCRETIONARY BURSARY

Other students facing genuine financial difficulties may be awarded a bursary to help with the costs of travel, books or equipment. Bursaries may also be paid in kind.

Bursaries are paid on achievement of criteria such as attendance, punctuality and progress. Education

and training providers decide on a student's eligibility for bursaries; they also administer the bursaries and payments.

If you need financial support, speak to your student support service or tutor to find out more, or visit the 16-19 bursary fund website www.gov.uk/1619-bursary-fund

CARE TO LEARN – HELP WITH CHILDCARE WHILE YOU LEARN

Care to Learn is available to young people under the age of 20 who have one or more children and participate in learning and training (not in employment), on a publicly funded course in England. If you live in London you may be awarded up to £175 per child per week to assist with childcare costs. For more information, please visit www.gov.uk/care-to-learn

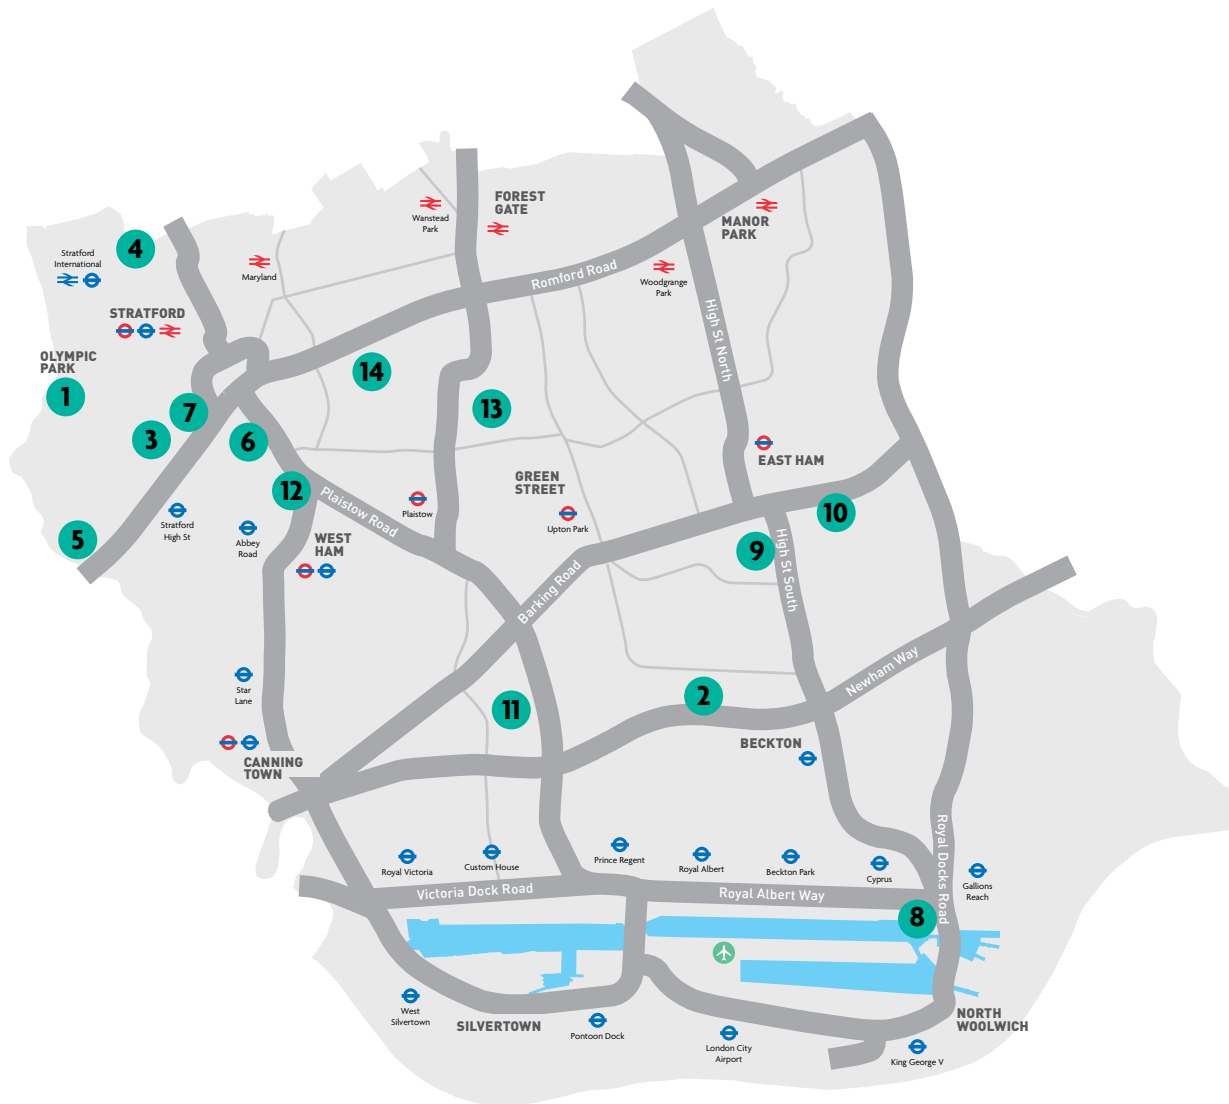

OTHER AWARDS AND ALLOWANCES

You could get a Dance and Drama Award (DaDA) to help with fees and living costs at one of 16 private dance and drama schools. Contact the school you want to go to and tell them you want to apply for a DaDA. You must be 16 or over and show talent and a likelihood to succeed in the industry.

If you are gifted and talented in specific subjects, such as sports, music and art, there are charitable organisations who you could apply to for funding. Information on such organisations is listed at public libraries, or you can speak to a careers adviser.

For more information, please visit <https://www.gov.uk/dance-drama-awards>

“Learning at Bobby Moore Academy is about delivering knowledge, outcomes and experiences which are transformational in their impact, both in the academic and enrichment space. Our sixth form extends this further, offering partnerships with universities, businesses and charities - if you are ambitious and aspirational about your sixth form journey, come and experience the BMA way for yourself.”

Mr Dan Botting, Executive Principal

Bobby Moore Academy (BMA) Sixth Form opens its doors to students in September 2022, promising to be East London’s most dynamic centre for post-16, level 3 learning.

BMA Sixth Form offers unique academic, careers and pastoral provision. Our curriculum offer includes 19 different subjects and qualifications, all carefully considered to ensure that we offer quality in East London. This is in terms of:

- being the best for students’ futures
- the qualification studied and the exam board which offers it
- the teaching staff whose professional qualifications and industry experience.
- the partnerships with universities, businesses, and charities, to enrich and extend the curriculum.

BMA Sixth Form has a purpose built, dedicated study centre, along with large panoramic roof terraces just for the sixth formers and a dedicated kitchen. Sixth form students are able to make use of cutting-edge facilities, including a theatre, dance and activity studios, recording studios and excellent sporting facilities, alongside The West Ham FC Stadium.

Separate but Connected

BMA Sixth Form is distinct from the rest of the academy in many ways:

Level 3 | A-level | BTEC

BMA Sixth Form seeks to build on the most outstanding feature of the academy: the provision for personal development. We provide you with a bespoke personal development package with the academic rigour and the opportunity to develop the skills and qualities needed to access the most elite universities worldwide and careers.

Partnerships, Careers and Futures

Situated at the heart of Queen Elizabeth Olympic Park, BMA Sixth Form is privileged to have incredible partnerships with a wide range of institutions. Other partnerships include Cambridge and Oxford Universities, UCL and King's College London. In designing every aspect of BMA Sixth Form, we are guided by our values of ambition, aspiration, courage and respect.

The Elephant Group (www.theelephantgroup.org) programme at BMA Sixth Form supports you in developing the skills and qualities needed for university admissions at the most competitive universities. Guidance is led by experienced school UCAS advisors, and supported by a range of teachers, who are graduates of Oxford, Cambridge, Russell Group and USA Ivy League universities.

Enrichment and Extension

BMA Sixth Form offers many enriching experiences from sport to the performing arts with national orchestras. Extension opportunities include the electives programme which consists of additional level 3 programmes to enrich curriculum offers. Courses include: the extended project qualification (EPQ), LAMDA, core maths and the certificate in financial studies.

Safe Hands

Learning and studying post-16 is the biggest educational leap a person can make, so it is important to trust the experts to support you every step of the way.

“Brampton Manor Academy Sixth Form is one of the country’s leading A-level providers. We offer only academic A-levels and provide excellent teaching and guidance that enables the vast majority of our students to progress to the most prestigious Russell Group universities in the UK. If you’ve got a dream, we’ll help make it a reality.”

Dr Dayo Olukoshi OBE,
Executive Principal

Brampton Manor Academy Sixth Form offers distinctive, academic provision within Newham. We deliver a rich programme of A-level teaching in a wide range of subjects for students who aspire to achieve the high grades required for admission to the UK’s top universities. Brampton Manor Academy is a highly successful school, rated by Ofsted as “Outstanding” in all areas in 2018.

Our amazing A-level results are an indication of the quality of our teachers, many of whom are Oxbridge and Russell Group graduates. Our teachers will leave no stone unturned in ensuring that you succeed.

We offer excellent resources with top quality accommodation in all curriculum areas, with the learning materials and equipment needed for outstanding teaching and learning.

Furthermore, we provide a bespoke programme of extracurricular activities, ranging from yoga to debating, to enrich your personal development. Many of our students attend summer schools with leading universities, including Oxford, Cambridge, Bristol and UCL. All students undertake work experience in a field of their choice in the summer.

Our sixth form is academically selective and students are taught in average class sizes of 20. Sixth form teaching takes place in our dedicated centre comprising of teaching rooms (including four science laboratories). Students also have access to a large study centre, common room and dedicated Sixth Form cafeteria

We offer you our track record as a school:

- > Our Russell Group progression rate, is consistently above 80% and this ranks us, in the top 10 in the whole of the United Kingdom year on year, with students going to great universities like Oxford, Cambridge, LSE, UCL, Imperial, Warwick, Bristol and Durham.
- > Our students achieved fantastic results at A-level with 90% of all grades awarded either an A* or an A.
- > We are in the top 1% of schools in the country for student progress from KS4-KS5.

Level 3 | A-level

> Over 50 of our students progress to Oxford and Cambridge Universities each year to study highly competitive courses like medicine, law and economics - the highest of any local provider and amongst the best in the country.

We offer you academic success and the opportunity to develop the skills and qualities needed for university admissions, alongside first class UCAS guidance provided by our dedicated university access officers, who are graduates of Oxford and Cambridge universities. Alongside the high academic success you will achieve at Brampton, our most defining feature is the care and support we provide our students. We treat all students as individuals and do all we can to help you achieve success in whatever field you wish, enabling

you to have an enjoyable and rewarding two years.

BUILDING CRAFTS COLLEGE

SUBJECTS

Construction

“The range of opportunities now being created for the pursuit of careers in the building, crafts and conservation related industries is unprecedented in recent times. The Building Crafts College helps provide students with access to those employment opportunities by offering a range of courses and skills-based qualifications ranging from apprenticeships in carpentry, joinery and stonemasonry to diplomas in fine woodworking and furniture making. The college is seeing a significant increase in demand as prospective students reassess their priorities and their career and life choices.”

David Dowdles, Principal

Every student is placed under the direction of a nominated course tutor, who is responsible for all

aspects of that individual’s training and welfare. Other members of staff will support the learner in meeting individual’s needs, but the nominated tutor combines the traditional role of the master craftsman with that of a mentor, to advise and guide students at every stage of their development. The college is essentially practically based. The majority of time is spent in the workshop environment, whilst much of the theory and underpinning knowledge is imparted in small groups around the work bench. Lecture rooms, with modern IT and projection facilities, are used for more structured, theoretical instruction, with a library also available as a quiet room for personal study. All students have access to the college computer system for course work.

Level 3	Workplace based NVQ	College Diploma	Apprenticeship Standard
Level 2	Workplace based NVQ	College Diploma	Apprenticeship Standard

BUILDING CRAFTS COLLEGE
Crafting Excellence

The college is fully committed to providing equality of opportunity and celebrating difference. We strongly believe that all of our students are capable of progressing in their chosen subjects, to become a master craftsperson, a construction manager, or a technical expert in their field. When students enrol at the Building Crafts College, they become our learners regardless of their background or prior achievement. They receive our support and commitment to achieve their full potential.

We are immensely proud of our many learners who have gone on to work for top employers in the built environment, craft and heritage sectors, or to establish their own businesses.

Students can progress through our Level 1 and 2 diploma courses in Bench Joinery and Stonemasonry on to Level 3 courses in the same subjects. Additionally, these courses as well as Bricklaying and Site Carpentry are available as Apprenticeship Standards. We support all students who haven't got their maths and English at GCSE and at 19+ students can progress onto other courses such

as Furniture Design and Making as well as our Advanced Heritage Stone course. A variety of Evening Classes and Short courses are also available to students 18+

“Our sixth form students have achieved amazing successes since we opened. We are all immensely proud of them.”

Michael Whitworth, Principal

Life in the sixth form is a very special time for students for many reasons. The core values of Chobham Academy, namely excellence, respect, integrity, innovation, collaboration, are mirrored within our sixth form. We combine the traditional values of excellent behaviour and smart attire with great teaching, academic excellence and the best of modern technology. Sixth-form students at Chobham Academy enjoy a dedicated ICT suite, study room and panoramic roof terrace as well as a sixth form cafe.

Our sixth form offers the opportunity to study on an A-level pathway or a technical pathway and the Football Academy was launched in 2018. In 2019, we also welcomed West Ham Girls Academy to the sixth form. Students are able to make use of cutting-edge facilities, including a theatre and box office, dance studio, Mac suite and recording studio and excellent sporting facilities.

In the nine years since opening, the 2022 results have been our most successful yet.

- Proportion of students studying an undergraduate degree at university - 84%.
- Proportion of students studying an undergraduate degree at a top 50 university - 46%.

Level 3 | A-level | Technical (CTEC)

- Many have secured places to study at the most prestigious universities in the country, including Imperial College London, UCL, the LSE and King's College London.

Chobham Academy is part of the Harris Federation, which in 2015 established a bursary for gifted but disadvantaged students who have gained places at Russell Group Universities. Chobham is included in the Harris Experience Advanced Years 12-13 Programme (HEA). HEA is a Russell Group application programme providing expert guidance and individually-tailored academic opportunities for our most able sixth formers.

In addition to these academic successes, our students have had access to a wide range of external speakers and careers advice. Students received visits from many outside organisations such as Pathways, UEL, Mark Evison Foundation, Unifrog, NCS, Holocaust Educational Trust, London Borough of Newham Workplace, UCL, Fix Up and Royal Holloway.

Chobham Academy, a Healthy School (Bronze award, 2017) was in June 2015 judged by Ofsted to be an 'Outstanding' school and the sixth form was also judged as 'Outstanding'. Ofsted

wrote that "[sixth form students] benefit from an extensive range of highly effective teaching and learning opportunities. There are opportunities to complete high quality work placements and participate in a carefully planned personal development programme."

HARRIS SCIENCE ACADEMY EAST LONDON SIXTH FORM

A-LEVEL SUBJECT LIST:

Biology
Chemistry
Computer science
Economics
English Literature
Further Mathematics
History
Mathematics
Philosophy
Physics

Harris Science Academy East London Sixth Form provides a high-quality A-level education aimed at creating the engineers, medics and scientists of the future. The Sixth Form has already built strong relationships with Oxbridge colleges and several Russell Group universities. We want to provide our sixth formers with the widest range of opportunities to continue their education at prestigious institutions as well as outstanding apprenticeships.

Our Curriculum Offer

Mathematics, biology, chemistry and physics A-levels are at the heart of our sixth form curriculum. All pupils studying A-levels will study mathematics with us.

Mathematics A-level is perhaps the single defining feature of a well-educated student. Having A-level mathematics increases the breadth of degree courses to which you can apply. It is essential to have A-level mathematics if you wish to pursue a degree in the sciences or engineering.

The sixth form provides pupils with the opportunity to study four A-level subjects with a guaranteed teaching allocation of five hours per week for each subject. Subject specialists will teach above and beyond the A-level specifications in order to prepare students for university life and to engage and inspire students in the subjects they have chosen.

Careers and Enrichment

Year 12 is a year packed full of opportunities for personal growth and development. In order to help you better understand your motivations and aptitudes, you are offered a 50 minute careers interview at the beginning of autumn term. An action plan will be produced for the year that will guide your choices of independent enrichment activities and internship opportunities.

Beyond 18 Week is five days of off-timetable talks and workshops from employers, apprenticeship providers. This is when you begin to write your initial personal statement for UCAS, have a mock Oxbridge-style interview and begin the search for opportunities over the summer holiday.

In the school calendar for year 12 are the following events:

- UCAS Exhibition at ExCel
- University and Apprenticeship Search Fair
- Volunteering to provide 1-2-1 tuition to lower school pupils
- Sixth Form Debating Society
- Careers drop in workshops and lunchtime seminars
- Saturday UCAS Personal Statement Writing Workshops.

The sixth form is built around Harris Science Academy East London's central ethos that all pupils deserve a high quality

education. Our teachers are extremely passionate about their subjects and will demand the attitude to learning to deliver top results. The sixth form is the final step in fulfilling the school's vision of creating intelligent and confident pupils that go on to make an impact in the world.

London Academy of Excellence Stratford (LAE Stratford) is an academically-focused and high-achieving sixth form in Stratford, East London. Located right next to the station and Queen Elizabeth Olympic Park, it has been rated Outstanding in all areas by Ofsted, and named as one of the World's Best Schools by T4 Education.

LAE Stratford is a great option for you if you love learning, are prepared to work hard, want to develop beyond the classroom, and aspire to study at a top university.

Our students achieved the best results in East London in 2019, with an average A-level grade of an A*. We are proud of our teachers, who were judged 'Outstanding'

by Ofsted, and of our university progression success - one in eight of our year 13s received offers to study at Oxford or Cambridge every year since 2022.

We are a values-driven school, and provide a world-class education and incredible opportunities to our students with the support of our partner schools, which include some of the top independent schools in the UK.

Level 3 | A-level

You could find yourself taking part in weekly sporting options ranging from Zumba and sailing to football and yoga, visiting one of the top universities and listening to a lecture from a world-famous actor like Sir Ian McKellan. This is the “LAE Experience”, and you will be part of an inclusive community that promotes academic achievement, aspirational opportunities, enriching experiences and personal development.

“An amazing thing is happening in East London. It’s going to change thousands of young lives and give Britain the dynamic and creative workforce it so desperately needs. It’s called LDE UTC and if you are 13+ and want to attend the tech school of the future, you need to know about it!”

Jason Bradbury, TV tech expert and LDE UTC governor

LDE UTC, based in the heart of the Royal Docks, East London is an industry led, hi-tech 13 – 19 college, providing educational excellence for the learners of today. LDE UTC has some of the most innovative and advanced teaching technology in the UK including a LEGO Innovation Studio, the most advanced humanoid robots and the latest

industry standard technologies enabling our learners to become confident, independent, work-ready individuals.

Young people choose to come to us because they have a passion to pursue a career in design, engineering and digital media. Much of the curriculum for our range of Level 3 courses is delivered through

Level 3 | A-level | BTEC | Advanced Apprenticeships

Cambridge Technicals | T Levels

interesting and exciting employer-led projects, enabling learning by doing. Learning content is relevant and memorable, boosting our learners' academic achievement.

Our young people receive expert advice from our employer partners and university sponsor, coupled with mentoring, site visits and work placements. Our employer partners include Thames Water, Costain, Skanska, Thames Tideway Tunnel, the University of East London and many more.

We also offer a unique pledge to all of our learners to help them move on to a degree course at university of their choice, an offer of employment or an apprenticeship with one of our many partners when they leave the UTC. If you are interested in a career in design, digital media and engineering then our practical and

academic approach, combined with the strength of our world class employer partners, then the LDE UTC is the place for you.

“Newham College has the highest achievement rates of any College in London. There’s no limit to what you can achieve; Whatever your ambition, we invest in industry qualified teaching staff to help you build the skills and grades you need for further studies or your chosen career path”.

Paul Stephen, Newham College Principal and Chief Executive

What’s new?

We have new and exciting developments at Newham College this year. We are launching the London City Institute of Technology (LCIoT) in September 2022, one of only 12 in the country. The new partnership with Queen Mary University of London and major employers will help you develop the technical skills that London really needs in digital, transportation, engineering, clean energy and construction. LCIoT provides state of the art equipment in a stunning new building. It is

one of several major investments Newham College has made in its facilities and curriculum. We also offer specialist training for professional and vocational careers, in industries such as health and life sciences, fashion and tailoring, hair and beauty, hospitality, business and sport. Whatever your interest, we are confident that Newham College has a course to meet all your goals.

Newham College courses

We offer the best in vocational education: BTECs, T Levels, Higher Technical Qualifications, Higher National Diplomas, and apprenticeships. Whilst many of our students progress direct into well paid work, we are highly successful at supporting students onto undergraduate programmes at university. Last year, over 400 of our students progressed to university, with over 15% being accepted by prestigious Russell Group universities. If you are a school-leaver and live in the Newham Borough, we can

Level 3	BTEC	Vocational	Advanced Apprenticeships
Level 2	BTEC	Vocational / GCSE resits	Intermediate Apprenticeships and Traineeships
Level 1	BTEC	Vocational	Foundation/Pre-Apprenticeship programmes
Level 2	GCSE resits		
Level 3:	T levels		

guarantee you a conditional offer at Newham College.

Student life

Our goal is to give every student a great experience of life at Newham College. We run a full programme of trips and activities, spanning sports, clubs, debating societies and enrichment activities. Our Careers and UCAS advice will help you plan your next steps into the world of work, apprenticeships or university. In addition to helping you do your best academically, we also prioritise student welfare and wellbeing, and our dedicated and caring staff will support you through your time at College. We are proud that our strongest advocates are our students – 97% confirmed in the 2022 survey that they felt safe and had a great experience.

NEWHAM COLLEGIATE SIXTH FORM CENTRE (NCS)

SUBJECTS

English literature

Humanities

Science and
Mathematics

“If you wish to study in a highly academic environment with teachers who will prepare you to progress to some of the most competitive universities in the UK or abroad then join us!”

Anita Lomax, Principal

Newham Collegiate Sixth Form Centre (NCS) is the academic A-level centre established by a group of Newham secondary schools: Cumberland, Kingsford, Lister, Little Ilford, Plashet, Rokeby, Royal Docks, Sarah Bonnell and Stratford School Academy. The NCS primarily offers places to students from its partner schools and other schools in Newham and surrounding areas.

The NCS offers a focused A-level curriculum for academic students, and the opportunity to study in a dedicated sixth form centre with high-quality facilities and a specialism in science and mathematics.

The ethos of the centre is to provide students with an academic education which also promotes self-development enabling and encouraging students to work hard and stretch themselves to achieve their full potential.

The A-level curriculum has a strong intellectual focus, and an emphasis on preparing students

for progression to Russell Group universities including Oxbridge. The NCS also supports student application to highly competitive US Ivy League Universities. The expert staff team provide a stimulating education, personalised curriculum, and opportunities to develop wider knowledge and experience within a supportive environment.

The centre has excellent facilities for students including state of the art science laboratories and iPads for all students as a learning tool. The centre also includes a lecture theatre, student library, quiet study centre, a student social centre and café.

Collegiate students will study four A-levels in their first year, and attend classes for five hours per week in each subject. Each student has a personal tutor and every student's

Level 3 | A-Level

**Newham Collegiate
Sixth Form Centre**

A specialist centre for Science and Mathematics

programme is individually designed to maximise study opportunities and prepare students for successful progression to leading universities or competitive internships. Students also undertake private study in the dedicated sixth form library and learning resource centre to develop their independence in preparation for university.

Students will benefit from the centre's bespoke Super Curriculum which is designed to stretch interests outside of core A-level studies providing development as a deep thinker, critical enquirer and intellectual risk taker.

An emerging talent programme gives students an insight into the careers of accountancy, banking, law, engineering, medicine and dentistry. The programme provides skills and knowledge through workshops with industry leaders, internships, work placements and mentoring from industry experts. A focused programme of preparation for university begins as soon as students start their Year 12 study. Students and staff work closely with leading universities including strategic partner UCL, to broaden students' understanding of different institutions subjects to familiarise them with the range of degree courses offered, and to start to target degrees they are particularly interested in.

BMAT: Biomedical Admissions Test
UKCAT: UK Clinical Aptitude Test

What is it like to study here?

“The most unique thing about the NCS is the academic buzz that you feel around here. It's palpable, you can feel it here. Every corridor you walk in there's a conversation that's about something interesting or something academic, and you don't get that at any other institution. It's amazing!”

Haseeb

At the end of Year 12, all students undertake specific preparation for applications and admissions to higher education, including Oxbridge and Russell Group universities as well as scholarship applications to international universities. Students also receive assistance with entrance examinations e.g. BMAT, UKCAT, LNAT and STEP.

If you are predicted to achieve a set of impressive GCSE results, and you are interested in studying the subjects we offer, then Newham Collegiate Sixth Form Centre is an excellent place for your sixth form study.

NewVic is a college with an excellent track record for successful student development and progression. We are a strong, inclusive community organised around the needs of individual students and focused on helping every individual succeed.

The 2018-19 academic year saw NewVic achieve its first OFSTED 'Outstanding' for personal development, behaviour and welfare of students. We are a thriving, diverse and inclusive college located in the heart of east London, with more than over 30 years of expert experience. Since 1992, NewVic has supported more than 50,000 students to achieve their goals. Our 2021 A-Level and vocational results saw a record breaking year with a 97% pass rate and more than 50% of students achieving a triple distinction in vocational courses.

As one of London's largest sixth form colleges, with more than 2,700 students, we offer a wide range of opportunities for learning and personal development. We get to know every student well and provide them with individual attention and tailored support. Our focus is to provide students with everything they need to successfully progress to higher education, apprenticeships, training or employment.

Year upon year, the majority of our students progress to university, with a significant proportion securing places at Russell Group universities and those within the top 50 league tables.

NewVic offers a wide range of courses including more than 35 A-level subjects, Level 3 subsidiary diplomas, T Levels, specialist Honours, Professionals Programmes, Level 2 and 3 vocational courses, and foundation level courses. If you choose to join us, you will receive excellent teaching and support to achieve the success you deserve, and create the future you want.

We offer a challenging honours programme for students who are looking to develop higher level critical thinking skills and progression to elite universities. The programme is designed to stimulate intellectual curiosity and provide weekly lectures and activities with leading university professors and thinkers on a wide range of topics.

We will treat you with respect and challenge you academically. At NewVic we not only support and invest in your academic success, we also place a high value on your all round development. One of the ways we do this is by providing an exciting, high quality and wide-ranging programme of student

Level 3	A-Level	T Level	Vocational
Level 2		Vocational	GCSE
Level 1		Vocational	Foundation programmes

development and sports activities.

These activities will help you broaden your experience, develop your interests and passions, support your wellbeing and offer opportunities for fun, competition and skills development.

Our Nrich programme covers creative arts, sports, leadership, enterprise, health awareness, language power, understanding our communities and our world. We run activities on a daily basis during lunchtimes, after college and on Wednesday afternoons. Clubs and societies you can participate in include DJing, debating, cricket, basketball and leadership academies, STEM clubs, creative writing, street dance, model United Nations and volunteering. Student development activities are fully inclusive and open to all students.

At NewVic you will also experience unique opportunities and development through our extensive network of former students, academic and industry partnerships. Take advantage of our 300+ professional links to boost your employability and propel your career prospects. We want all students to enjoy

Gauri Shaji

“Do not be doubtful, put yourself out there, get involved. In the end it will possibly be the best decision you have made.”

Gauri is currently in her second year of studying Level 3 Health and Social Care. She was a former Plashet School student and aspires to pursue medicine. Gauri is also part of the sports academy and in the Women’s Netball Team as well as being a Here Come the

Girls Ambassador, getting involved in organising charity events, raising awareness on mental health and more.

their time at NewVic, unlock their potential, and achieve their goals for successful progression to higher education or the world of work.

“Universities want thinkers. Employers seek problem solvers. So schools have to change. At Six 21 we offer a top academic education, and a lot more - incredible opportunities to develop into extraordinary individuals.”

Peter Hyman,
Co-director of Big Education

School 21 is an exciting place to learn. Outstanding leadership has produced a highly effective school in a short time. Excellent teaching across the school and in every subject allows all groups of pupils to achieve equally well and we are rated “Outstanding” in all categories by Ofsted.

From School 21 comes a pioneering new sixth form, Six 21 which opened September 2017. Six 21 is a dynamic

and exciting place for those with the ambition to go to top universities, find fulfilling careers and make a difference to the world.

School 21’s experienced team has a track record developing exceptional students who are eloquent speakers, skilled problem solvers and creative thinkers. At Six 21, we believe in the balanced development of Head (academics), Heart (empathy) and Hand (creating).

A unique programme of learning

We have created a bespoke programme for every student at Six 21, drawing upon an unrivalled network of organisations and opportunities that the school’s founders and influential trustees have built up over the last five years.

- > A-levels taught by outstanding teachers employing the most advanced teaching techniques - working in partnership with top universities (including King's College London and Oxford and Cambridge colleges).
- > Research projects, academic courses, and design projects ensure all students extend their knowledge, skills and experiences far beyond the normal for A-Level students, providing the best foundation for success and independence at university and beyond.
- > Real-world learning - long term, ongoing placements with our network of partners: project internships in the fields of law, medicine, the arts, high tech businesses.
- > Leadership development and service learning. The chance

What is it like to study here?

'I couldn't have asked for a better sixth form experience. Six 21 perfectly accommodates for students who are looking for a great extracurricular experience alongside a two-year journey full of academic growth and success. Six 21 pushes you out of your comfort zone, through life-changing experiences, preparing you for life after sixth form.' - Farhad Uddin

'I had no idea why I joined Six21 but coming out the other side I definitely don't regret my decision. They've turned me from a quiet and shy student to a confident, ambitious and pioneering entrepreneur, they prepared me to take on whatever the world has to throw at me!' - Israh Malik

to make a difference, address challenges, and campaign for change in your local community and internationally.

Are you ambitious, academic and enterprising? Do you want a sixth form experience that goes beyond the ordinary? If so, Six 21 could be the place for you.

Theology

“A very warm welcome to St Angela’s Ursuline Sixth Form as you consider the next stage of education and your aspirations for university and working life. Your choice of post-16 education in both the institution you choose and the courses you wish to study is one of the most important decisions you will make in your life. With a long history of excellence in the post-16 sector and the most successful non-highly selective sixth form in Newham, St Angela’s is the right place to take on the challenge of the biggest educational leap you will ever make and importantly

it is with people who care about you.”

Mark Johnson, Headteacher

St Angela’s Ursuline Sixth Form is situated in the heart of Forest Gate. We have an excellent, longstanding tradition of providing an outstanding education, filled with excitement and challenge. We offer advanced learning courses and a huge range of super enrichment opportunities. The mechanisms to ensure you are a holistic learner and the sixth form’s outstanding support make our progression rates to university truly exceptional at 98%.

What was it like to study here?

“Not only did I benefit from the great support we got in lessons, I was also amazed by the number of enrichment activities on offer.”
Sam, now studying Mathematics at Durham University

What was it like to study here?

“There is so much opportunity provided in the sixth form to set you on the right path for further education and life. Constant support and guidance is provided to motivate you towards success.”
Sara, now studying Medicine at Queen Mary University of London

Our links to universities are well developed including partnerships which provide unique opportunities, reduced offers and distinct scholarships. We also hold incredible networks to the world of work, ultimately creating innovative opportunities for all students to grow as individuals as well as part of the very special community that is St Angela's Sixth Form.

“We get to know every one of our students individually and provide support to them every step of the way. We make sure parents are kept fully aware of their progress and our small class sizes of approximately 13 per class means we provide more personalised teaching. St Bonaventure’s has all the advantages of a traditional 6th form with excellent mentoring and pastoral care.”

Wayne Templeman,
Director of 6th Form

We teach traditional subjects that are highly rated by the most prestigious universities and we make sure that our students make exceptional progress. Our 6th form is co-educational and we provide

an outstanding education to young men and women wishing to study a variety of subjects, both academic and vocational.

Our results are consistently good and we have the best results in the country in the highly regarded humanities and social sciences. Our new 6th form building which opened in January 2017 is a dynamic centre for post-16 learning, supporting achievement, aspiration and progression.

Standards and expectations are very high at St Bonaventure’s and we boast longstanding partnerships with successful academic institutions and employers. St Bonaventure’s has a fantastic

Level 3 | A-Level | BTEC | Vocational

reputation on a local, national and international level and many of our alumni have made positive impacts in many areas of society since we were founded in 1877.

Choose us if academic success is as important to you as it is to us.

What is it like to study here?

St Bonaventure's is a school which embodies community spirit, integrity and academia. Not only do you receive unlimited support and care from teachers, you build important relationships and are taught life lessons that you can take to the next stage of your life. "Once a Bons student, always a Bons student." Farhana Begum Head Girl

"St Bonaventure's is a diverse, inclusive community where everyone is valued and respected. Progress is driven by all the teachers and students achieve amazing results every year. There is a very strong academic focus, but what I love about St Bonaventure's most is that students are developed into young citizens who can make a difference in society." James Appiah former Head Boy now studying Politics & International Law at Cambridge

The St Bonaventure's school community is a warm-hearted and respectful environment for both students and staff. The phenomenal teachers always work extremely hard for the success and academic progression of the many talented and strong-minded students, helping students to develop social relationships for their future benefit. Overall, what I truly love about St Bonaventure's is the positive attitude and strong-willed mentality that everyone adopts for the benefit of themselves as well as their peers, always aiming and striving for the best together. Nathaniel Achea - Head Boy

OTHER PATHWAYS

Although the colleges and further education providers in Newham offer an extensive range of study options and facilities, you might be looking for a particularly specialised course available locally or in a neighbouring borough. You can find out more about what is on offer at other education and training providers by visiting their websites, or contacting them directly through the details listed below.

GOING TO UNIVERSITY

GOING TO UNIVERSITY GIVES YOU THE OPPORTUNITY TO TRANSFORM YOUR LIFE

A university degree can provide entry to a wide range of careers and opportunities. Those who have degrees are also more likely to be in employment than those with lower level qualifications.

According to the Office for National Statistics, graduates will earn substantially more over their working life than non-graduates, so a degree can be considered a worthy investment.

In order to progress in specific careers, such as being a doctor, you will be required to study medicine, to degree level. An increasing number of careers and employers now require degrees (especially for senior roles). These include nursing, teaching and many computing and technical jobs.

At university, you can:

- study a subject you love at a higher level and be taught by experts in your chosen field
- study in a global community of students bringing rich and varied experiences
- acquire and develop the higher level skills that are prized by employers
- enhance your personal development, skills and experience through internships, volunteering, working with researchers and studying abroad.

START THINKING ABOUT UNIVERSITY NOW

You will get many opportunities to find out about university while you are a student in Newham. Take every opportunity you can to visit campuses and get involved in summer schools, masterclasses

and other activities. These experiences will all help you to gain a greater understanding of what studying at university is all about.

CHOOSING YOUR SUBJECTS

It is important to know what the entry requirements for the university course you are interested in studying are. Requirements may vary between universities, but some courses, such as medicine, require you to have studied specific subjects.

There are some subjects preferred by selective universities. These are sometimes referred to as “facilitating subjects”, which include:

- Maths and Further Maths
- English Literature
- Physics
- Biology
- Chemistry
- Geography
- History
- Languages (classic and modern).

The table below provides some examples of the core Level 3 subjects you may need to apply for specific courses at university.

For more information about choosing your subjects and entry requirements, have a look at Informed Choices, the Russell Group’s guide to making decisions about your post 16 education. The Russell Group represents 24 leading UK universities which are committed to maintaining the very best research, an outstanding teaching and learning experience and unrivalled links with business and the public sector.

Suggested A-level pathways which target admission to selective universities	Core A-level subjects (students choose three subjects)	Facilitating subjects (students choose one subject)
Medicine/dentistry	Maths, further maths, physics, chemistry, biology	English literature, history, geography or a modern foreign language
Medical sciences	Maths, physics, chemistry, biology, psychology	English literature, history, geography or a modern foreign language
Veterinary science	Maths, chemistry, biology, English literature	English literature, history, geography or a modern foreign language
Biological sciences	Maths, chemistry, biology, psychology	English literature, history, geography or a modern foreign language
Physical sciences	Maths, further maths, physics, chemistry	English literature, history, geography or a modern foreign language
Maths	Maths, further maths, physics	English literature, history, geography or a modern foreign language
Engineering pathway	Maths, further maths, physics, chemistry	English literature, history, geography or a modern foreign language
Politics, philosophy and economics	Maths, English literature, history, economics	A modern foreign language or geography
Humanities	Students choose four subjects from the following: English literature, history, geography, religious education, a modern foreign language, psychology or biology	

UNIVERSITY FEES AND FINANCE – FUNDING IS AVAILABLE

Going to university costs money. You will have tuition fees to pay and you will need money for your living costs: things like your rent if you live away from home, money for food, travel, clothes and books and materials for your course. The good news is there are loans to help you with all of these costs.

TUITION FEE LOANS

You will probably have seen in the news that students will pay up to £9,250 a year for undergraduate courses and most degree courses last for three years. You do not have to pay these fees up front. Instead the government, through the Student Loans Company, will provide you with a loan to pay your fees. The fees will be paid directly to the university for all eligible students.

REPAYING YOUR LOAN

Student loans are designed to be manageable and realistic. You are liable to repay your loan in the April which falls three years after the start of your course, but you will only make repayments if you are earning more than £27,295 on plan 2, and £20,195 a year on plan 1. Once you earn more than £27,295 on plan 2, £20,195 a year on plan 1, you pay 9% of your income above £27,295 on plan 2, £20,195 a year on plan 1. The thresholds are £388 a week or £1,682 a month (before tax and other deductions). Example, You're paid monthly and your income changes each month. This month your income was £2,000, which is over the Plan 1 monthly threshold of £1,682.

Your income was £318 over the threshold (£2,000

minus £1,682). You will pay back £28 (9% of £318) this month.

Example, Your annual income is £27,000 and you're paid a regular monthly wage. This means that each month your income is £2,250 (£27,000 divided by 12). This is over the Plan 1 monthly threshold of £1,682.

Your income is £568 over the threshold (£2,250 minus £1,682). You will pay back £51 (9% of £568) each month.

You will pay interest on your tuition fee loan, and you need to be aware that the amount you owe will increase each year with interest. Interest charged varies depending on if it is Plan 1, 2, 4 or post graduate loan rate. Go to <https://www.gov.uk/repaying-your-student-loan/what-you-pay> for more information. If your repayments don't start because you're earning less than £27,295 on plan 2, £20,195 a year on plan 1, the interest on your loan will increase at the rate of inflation.

Repayments are normally taken automatically from your salary, and monthly repayments are linked to your income and not the amount borrowed. If you haven't paid off the loan after 30 years on plan 2, and 25 years on plan 1, your loan will be written off.

LIVING COST LOANS

You will be able to get some help with your living costs in the form of a loan. Living cost loans are determined by your family income and individual circumstances such as whether you are studying in London or living at home.

SCHOLARSHIPS AND BURSARIES

Each university will offer scholarships and bursaries and will have details of these on their website. Scholarships and bursaries do not have to be repaid.

Ieva Petraviciute

Ieva studied A-levels in film studies (A), history (B) and psychology (A), and a Level 3 subsidiary diploma in TV and film production (D*). She is going on to study digital film production at the University of Greenwich.

"The teachers at NewVlc are very understanding and know what is best for me, challenging me to reach my full potential. I have learned so many things during my course that I am sure will help me in the future. I have also been involved in the NewVlc Dance Company and the Raleigh Programme. During my time at NewVlc, I have built up my confidence which has led me to doing great things such as work experience at MTV."

Rumana Ali, ex-Plasht School, ex-NewVlc 6th Form College. Now studying at Oxford University.

Rumana achieved A-levels in English literature (A*), government and politics (A) and history (A*) and an AS-level in economics (A). She is now studying history at St. Hilda's College, Oxford University

WHERE DO I START

- List your qualifications or predicted grades, your skills and interests.
- Think about where you want to get to - what do you want to be doing in five years' time?
- How will you get there? What qualifications or training will you need?
- Research different courses.
- Research different education providers.
- Find out the application deadlines for courses you are interested in.
- Find out about open days and open evenings.
- Find out your current school deadlines for tutor references.
- If in doubt, ask!

WHERE TO GET ADVICE AND INFORMATION?

IF YOU ARE AT SCHOOL

If you are in years 10 or 11, contact your school careers adviser or careers teacher.

IF YOU ARE OVER 16

You can call Our Newham Work on 020 3373 1101 if you are 16-18 to talk to an advisor about your options.

Contact the National Careers Service for more information, advice and guidance on careers and the qualifications and skills needed for them. Visit www.nationalcareersservice.direct.gov.uk for an online chat or call 0800 100 900 to speak to a careers adviser.

FOR MORE INFORMATION ON APPRENTICESHIP OPPORTUNITIES

Talk to your careers adviser about apprenticeships or contact Newham College, Building Crafts College or the London Design and Engineering UTC in Newham for information about pathways into apprenticeships.

Visit www.gov.uk/become-apprentice or talk to your school careers adviser to discuss your options.

To search for apprenticeship vacancies, go to www.gov.uk/apply-apprenticeship

- It is free to register and once you have set up your account you can receive alerts to tell you about new vacancies. For information and guidance visit

www.findapprenticeship.service.gov.uk/apprenticeshipsearch

where you can download:

- How to write a winning apprenticeship application.
- Progress your career with higher apprenticeships.
- Apprenticeship support guide.

Our Newham Work maintains a database of Newham residents aged 18 and over who are interested in finding out about apprenticeship opportunities. Register your interest by getting in touch with the engagement team. Visit www.newham.gov.uk/Pages/Services/Apprenticeships.aspx or call 020 3373 1101 or email ournewhamwork.engagementteam@newham.gov.uk Drop into the Stratford Office between 9am-4.30pm (Monday-Friday), or make an appointment by calling Our Newham Work, 112-118 The Grove, Stratford, E15 1NS

FOR MORE INFORMATION ON TRAINEESHIP OPPORTUNITIES

Traineeship opportunities will be advertised regularly on the National Apprenticeship Service website

www.gov.uk/apply-apprenticeship

For more information about traineeships visit www.gov.uk/find-traineeship

16-19 Bursary Fund
