West Ham Park
Street survey

**OUR NEW
STREETS**

BUILDING A
FAIRER
NEWHAM

Newham Council would like to seek your views about road safety, air quality, walking, cycling, and traffic on the street where you live.

This is being proposed in response to a petition and requests by local residents voicing concerns about pollution, noise, road danger and traffic in the area. As part of Newham's corporate plan, we are committed to reducing traffic cutting through our neighbourhoods.

We invite you to respond to a quick five-minute questionnaire. Results of the questionnaire will be used to agree the local priorities and how to address the views raised.

Projects could include, measures to reduce vehicle speeds and through traffic, improving footways and crossing, green infrastructure, cycling infrastructure and more.

To complete the questionnaire, please visit:
newhamco-create.co.uk/en/projects/westhampark

The questionnaire will close on **Saturday 01 April 2023**.
