

# Newham 20mph Programme

## Delivering 20mph streets across Newham

March 2024

Newham Council is introducing a 20mph speed limit on most streets across the borough. Many streets are already 20mph and we want to reduce the speed limit on others so that our streets are safer for everyone to use.

### Lower speed limits can help:

Reduce the number of collisions

Reduce the likelihood of serious injuries in collisions, especially for pedestrians

Reduce noise and pollution from motor traffic

Encourage people to walk and cycle more, if they can

The programme is planned to be delivered in phases, with the completion of the entire programme expected in 2025. Implementation of Phase 1 is underway as of late February 2024.

Some major roads are not included in the 20mph programme and will retain their existing speed limits. Private streets (e.g. in developments or estates) and streets that are not managed by the Council are also excluded from the Newham 20mph programme. All other streets are proposed to become 20mph as part of this programme.

### Phase 2

Phase 2 consists of streets to the south of Romford Road and north of Barking Road (see map on the next page).

Before implementing additional 20mph streets in Phase 2, we need to prepare a Traffic Order. The public notice for this Traffic Order can be found here:

[newham.gov.uk/transport-streets/newham-20mph-programme/3](https://www.newham.gov.uk/transport-streets/newham-20mph-programme/3)

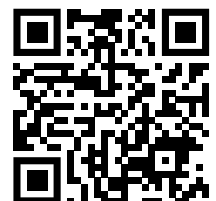

Any comments or objections should be made in writing by **27 March 2024** at the contact details provided in the public notice.

Information about other phases will be shared as we progress with delivery.

For any questions or comments, feel free to contact us: [20mph@newham.gov.uk](mailto:20mph@newham.gov.uk)

**020 8430 2000** – option 5 (highways), then option 4 (other parking or highways issues)
