## What's been achieved so far?

- **This community plan** that we've just completed has been the result of over 6-7 months of collaborative effort between local people and the council.
- Since September 2018 a **new culture of participation** is gradually taking root
- By the end of March over **40 assembly events** will have taken place.
- They have demonstrated how local people can discuss and put forward proposals in a **harmonious and constructive** way
- Newham's Assemblies are also giving a voice to – **The Youth, The Deaf Community and Disabled People.**

# Manor Park Citizens' Assembly

## What's been achieved so far?

- **The People's Budget Forum** has seen the beginning of bringing local people into helping the council make budget decisions.
- The **Our Streets Transport and Parking** engagement brought the digital democracy platform (Polis) together with Forum events to work on complex issues in a civil and constructive way.
- The council is listening and with the help of residents we can get **better results together**
- So the next round is about **your feedback**. What do you think has been positive? What needs to be improved?

# Manor Park Citizens' Assembly

**Feedback Round - What did you think of the whole assemblies process from September to February? What did you like? What could be improved?**

very interesting , allows people to air there views
we should have had a consultation about Browning road bridge closure
loop system for hard of hearing
layout of room from encouraged peoel from differents backgrounds to meet each other
more youth involvement
use more platform to reach out - communication
Schools need to engage more with keep Britain tidy
how will we know the effect of foru/ms such as the transport and budget forums on council priorities, budget and expenditure
Liked the process but relied on translation
less single plastic cups at the evetns

its been positive to engage with general public
lack of representation from disabled people
invite officers and department in the process
there was no consultation about parking permits after the six month period, this was highlighted at the highways forumbut no feedback
Most important thing is to educate residents on how to keep the neighbourhood clean
Good process
positive involvement
better outreach to get more people
It's been a very positive experience - there is a wide range of people involved
Everyone here should regard themselves as an ambassador, to go out and tell more people about it to get more people involved.

# Manor Park Citizens' Assembly

**Feedback Round - What did you think of the whole assemblies process from September to February? What did you like? What could be improved?**

I like it
About time residents are involved
positive process
it is very good to hear people's voice
It echoes a lot and hard for the host to explain
First time this kind of thing has happened. It's a good thing and we live and learn.
A good process

The assembly is ok but sound system need to be improved
Continuous engagement to draw in more residents throughout the process
more higher budget is need
it would be nice to follow up on the results to ensure that it all happens
Mor democratic way of resident involvement
This is a good process but could do with more time
Provide some feedback about progress being made in the Newham Mag that is easily understandable and catchy to get more people to engage
good to bring other people together
Can't judge from first attempt. Good to learn going forward. Good idea.
who knows better than residents

**Feedback Round - What did you think of the whole assemblies process from September to February? What did you like? What could be improved?**

multi venues to run assemblies
after attending for the first time , I have been very impressed
be good to see the results from the other forums and the effect this has on council policy and expenditure
Good table host
It's always been clear what is achievable and measurable - managed expectations well
voting can be online to reach out to other people that cant attend
suggestion ther should be far better communication with the SNT ward panels , to get the message across about assemblies
Well managed process that has been clearly structured bearing in mind that this is the first time that it's been done
Landlords to take on more responsibility for educating their residents. Needs to be part of the landlord licencing scheme.
More opportunities for those with barriers to accessing the process; elderly / visually impaired / disabled - more inclusive
