

# UKSPF FUNDED REBEL BUSINESS SCHOOL

*"Business doesn't need to be expensive, there are free ways to do business that can act as a trial run. Once the business concept has been proven, you can then move over to paid services to level up the business. For example: you can create an entirely free website and then later upgrade to a paid website with the custom domain name.*

*Opportunities will appear when you are ready for them. When you educate yourself and put in the hard work, the opportunities will appear. For example, in one particular week, I focused on making at least ten videos to share on my social media. Shortly after releasing my videos, I had an old colleague reach out as he wanted to invest in property with me. I am now his construction project manager and will also be his letting agent to rent out his property once it is complete."*

## Michael MDH Properties LTD

*MDH Properties is a London-based lettings company, offering lettings/rental services, property investment, and development opportunities, founded by Newham resident Michael Dinh Ho, he aims to service everyone and anyone who has an interest in property, whether you are: keen to learn more about the property industry, a landlord, tenant, property investor, builder or any other property stakeholder.*

*Michael has taken advantage of our business start-up offer through the Rebel Online Business School, funded by the UKSPF fund, we tracked his progress since completing the course and got him to share some of his advice for others on the entrepreneurial journey.*

*Michael always had an entrepreneurial spirit. From working in the family off-license business whilst still in primary school, he went on to sell football stickers to classmates, to setting up a sports trading business to help pay for his university fees, as well as setting up his own events business and now running his property business.*

*One of the main reasons Michael decided to take advantage of the Rebel Online Business School was his deep thirst to continuously learn and never settle. "I truly believe that knowledge is power and Rebel has given me that confidence to build my business.*

*Rebel Business School helped me achieve exactly what their mission is: to start a business without needing money or banks, taking away the risk from business. I spent thousands of pounds studying Business Management at university, which felt very theoretical, however, Rebel Business School goes that extra step further and applies business knowledge to straightforward actionable steps.*

*I would certainly recommend the project to others, it's free so you have everything to gain and nothing to lose!"*

*Below are some of his key highlights and achievements since completing the course:*

- Set up a new website, social media platforms, and Google business account.*
- In a very short period of just 3 months, across all my Social Media platforms, I have amassed over 10,000 views and 100 subscribers on my videos.*
- Picked up 4 new long-term paying clients.*
