		<p>what would happen to the person they cared for.</p> <p>This helped the carers be involved in the planning and start transitions for older age. She wanted to know if this would be a part of the Action.</p> <p>Melissa said that we could give that suggestion to the Carers Commissioner (Luke).</p> <p>Angie said that she has raised this a few times. It is really important to have these plans made.</p> <p>If something happens to the carer without a plan, the person can be moved out of their family home. Sometimes to a different borough. Then they are away from their friends, their day service and everything they know.</p> <p>Having these plans also make sure that the residents have good person-centred planning.</p> <p>Neil said that it is really important to stay in your area so you can keep the same GP, Dentist and Optician.</p> <p>Angie said that you probably need a paid person to do this, to make sure that the work happens.</p>	<p>Luke</p>
